

Supplier price increases

We make a point of consistently trying to get the best deals from our suppliers and making sure our customers get a fair price for their materials. We make a special effort to be competitive with other merchants and will continue to do so. Unfortunately we still incur price increases. To help you to prepare we've made the following sheet so you know what prices may be changing and by how much.

Please check with office for exact details and any other brands/products

Suppliers	Price change (%)	Date
